Subject Index

ABRs
Cochlear nuclei; Conductive loss; Development; EAM atresias; Monkey (Doyle, W.J. (54) 145)

Acoustic trauma
Efferents; Protection; Outer hair cells; Susceptibility (Patuzzi, R.B. (54) 45)

Aging
Cochlea; Hair cell; Compound action potential; Presbycusis; Hearing loss; Mongolian gerbil (Tarnowski, B.I. (54) 123)

Amino acid
Uptake; Neurotransmitter; Hair cell (Bobbin, R.P. (54) 135)

Anaesthetics
Vestibular; Type I hair cell; Barbiturate; Ketamine; Isolated cells (Scarfone, E. (54) 247)

Anesthesia
Auditory brainstem response; Auditory evoked potential; Low-frequency potential; Slow-wave; Ketamine; Gerbil (Smith, D.I. (54) 1)

Aspirin
Hearing loss, chemical-induced; Chinchilla; Hearing loss, noise-induced; Salicylate; Threshold shift (Bancroft, B.R. (54) 20)

Auditory
Brainstem auditory evoked responses; Development; Brainstem; Normative study; Children (Jiang, Z.D. (54) 67)

Auditory brainstem response
Auditory evoked potential; Low-frequency potential; Slow-wave; Anesthesia; Ketamine; Gerbil (Smith, D.I. (54) 1)

Auditory cortex
Cochlear hearing loss (Harrison, R.V. (54) 11)

Auditory deprivation
Chronic electrical stimulation; Cats; Cochlear nucleus; Neonatal deafness (Hultcrantz, M. (54) 272)

Auditory evoked potential
Auditory brainstem response; Low-frequency potential; Slow-wave; Anesthesia; Ketamine; Gerbil (Smith, D.I. (54) 1)

Auditory nerve fiber
Hyperbilirubinemia; Spontaneous discharge activity; Gunn rat; Cochlear nerve histology (EL Barbary, A. (54) 75)

Hyperbilirubinemia; Frequency threshold tuning; Two-tone rate suppression; Cochlear nonlinearities; Gunn rat (EL Barbary, A. (54) 91)

Auditory system development
Spiral ganglion; Electrical stimulation; Histopathology; Cochlear implant; Neomycin; Ototoxicity (Leake, P.A. (54) 251)

Barbiturate
Vestibular; Type I hair cell; Anaesthetics; Ketamine; Isolated cells (Scarfone, E. (54) 247)

Basilar membrane
Hyaline cells; Contractile proteins; Caiman (Drenckhahn, D. (54) 29)

Brainstem
Brainstem auditory evoked responses; Development, Auditory; Normative study; Children (Jiang, Z.D. (54) 67)

Brainstem auditory evoked responses
Development; Auditory; Brainstem; Normative study; Children (Jiang, Z.D. (54) 67)

Caiman
Hyaline cells; Basilar membrane; Contractile proteins (Drenckhahn, D. (54) 29)

Cats
Chronic electrical stimulation; Cochlear nucleus; Neonatal deafness; Auditory deprivation (Hultcrantz, M. (54) 272)

Chick
Papilla; Hair cell; Stereocilia; Link; Tip link; Development (Pickles, J.O. (54) 153)

Children
Brainstem auditory evoked responses; Development; Auditory; Brainstem; Normative study (Jiang, Z.D. (54) 67)

Chinchilla
Aspirin; Hearing loss, chemical-induced; Hearing loss, noise-induced; Salicylate; Threshold shift (Bancroft, B.R. (54) 20)

Chronic electrical stimulation
Cats; Cochlear nucleus; Neonatal deafness; Auditory deprivation (Hultcrantz, M. (54) 272)

Cochlea
Stria vascularis; Melanin; Strain difference; Guinea pig (Hoeffding, V. (54) 39)

Aging; Hair cell; Compound action potential; Presbycusis; Hearing loss; Mongolian gerbil (Tarnowski, B.I. (54) 123)

Cochlear coordinates
Critical bandwidth; Masking; Consonance; Nonlinearity; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 164)

Critical bandwidth; Masking; Consonance; Nonlinearity; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 209)

Cochlear hearing loss
Auditory cortex (Harrison, R.V. (54) 11)

Cochlear implant
Spiral ganglion; Electrical stimulation; Histopathology; Auditory system development; Neomycin; Ototoxicity (Leake, P.A. (54) 251)

Cochlear nerve histology
Hyperbilirubinemia; Auditory nerve fiber; Spontaneous discharge activity; Gunn rat (EL Barbary, A. (54) 75)

Cochlear nonlinearities
Hyperbilirubinemia; Auditory nerve fiber; Frequency threshold tuning; Two-tone rate suppression; Gunn rat (EL Barbary, A. (54) 91)

Cochlear nuclei
ABRs; Conductive loss; Development; EAM atresias; Monkey (Doyle, W.J. (54) 145)

Cochlear nucleus
Chronic electrical stimulation; Cats; Neonatal deafness; Auditory deprivation (Hultcrantz, M. (54) 272)

Cochlear vibration
Outer hair cell; Feedback; Model (Geisler, C.D. (54) 105)

Combination tones
Critical bandwidth; Masking; Consonance; Cochlear coordinates; Nonlinearity; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 164)

Critical bandwidth; Masking; Consonance; Cochlear coordinates; Nonlinearity; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 209)

Compound action potential
Cochlea; Aging; Hair cell; Presbycusis; Hearing loss; Mongolian gerbil (Tarnowski, B.I. (54) 123)

Conductive loss
ABRs; Cochlear nuclei; Development; EAM atresias; Monkey (Doyle, W.J. (54) 145)

Consonance
Critical bandwidth; Masking; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 164)

Critical bandwidth; Masking; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 209)

Contractile proteins
Hyaline cells; Basilar membrane; Caiman (Drenckhahn, D. (54) 29)

Critical bandwidth
Masking; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 164)

Masking; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 209)

DC potential
Endolymphatic sac; Ionic activity; Longitudinal flow (Ikeda, K. (54) 118)

Development
Brainstem auditory evoked responses; Auditory; Brainstem; Normative study; Children (Jiang, Z.D. (54) 67)

ABRs; Cochlear nuclei; Conductive loss; EAM atresias; Monkey (Doyle, W.J. (54) 145)

Chick; Papilla; Hair cell; Stereocilia; Link; Tip link (Pickles, J.O. (54) 153)

Dominance
Critical bandwidth; Masking; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Suppression (Greenwood, D.D. (54) 164)

Critical bandwidth; Masking; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Suppression (Greenwood, D.D. (54) 209)

EAM atresias
ABRs; Cochlear nuclei; Conductive loss; Development; Monkey (Doyle, W.J. (54) 145)

Efferents
Acoustic trauma; Protection; Outer hair cells; Susceptibility (Patuzzi, R.B. (54) 45)

Electrical stimulation
Spiral ganglion; Histopathology; Cochlear implant; Auditory system development; Neomycin; Ototoxicity (Leake, P.A. (54) 251)

Endolymph
Inner ear; Interdental cells; Tectorial membrane; Pilocarpine; Secretion (Prieto, J.J. (54) 59)

Endolymphatic sac
Ionic activity; DC potential; Longitudinal flow (Ikeda, K. (54) 118)

Feedback
Cochlear vibration; Outer hair cell; Model (Geisler, C.D. (54) 105)

Frequency threshold tuning
Hyperbilirubinemia; Auditory nerve fiber; Two-tone rate suppression; Cochlear nonlinearities; Gunn rat (EL Barbary, A. (54) 91)

Gain control
Critical bandwidth; Masking; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Dominance; Suppression (Greenwood, D.D. (54) 164)

Critical bandwidth; Masking; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Dominance; Suppression (Greenwood, D.D. (54) 209)

Gerbil
Auditory brainstem response; Auditory evoked potential; Low-frequency potential; Slow-wave; Anesthesia; Ketamine (Smith, D.I. (54) 1)

Guinea pig
Cochlea; Stria vascularis; Melanin; Strain difference (Hoeffding, V. (54) 39)

Gunn rat
Hyperbilirubinemia; Auditory nerve fiber; Spontaneous discharge activity; Cochlear nerve histology (EL Barbary, A. (54) 75)

Hyperbilirubinemia; Auditory nerve fiber; Frequency threshold tuning; Two-tone rate suppression; Cochlear nonlinearities (EL Barbary, A. (54) 91)

Hair cell
Cochlea; Aging; Compound action potential; Presbycusis; Hearing loss; Mongolian gerbil (Tarnowski, B.I. (54) 123)

Amino acid; Uptake; Neurotransmitter (Bobbin, R.P. (54) 135)

Chick; Papilla; Stereocilia; Link; Tip link; Development (Pickles, J.O. (54) 153)

Hearing loss
Cochlea; Aging; Hair cell; Compound action potential; Presbycusis; Mongolian gerbil (Tarnowski, B.I. (54) 123)

Hearing loss, chemical-induced
Aspirin; Chinchilla; Hearing loss, noise-induced; Salicylate; Threshold shift (Bancroft, B.R. (54) 20)

Hearing loss, noise-induced
Aspirin; Hearing loss, chemical-induced; Chinchilla; Salicylate; Threshold shift (Bancroft, B.R. (54) 20)

Histopathology
Spiral ganglion; Electrical stimulation; Cochlear implant; Auditory system development; Neomycin; Ototoxicity (Leake, P.A. (54) 251)

Hyaline cells
Basilar membrane; Contractile proteins; Caiman (Drenckhahn, D. (54) 29)

Hyperbilirubinemia
Auditory nerve fiber; Spontaneous discharge activity; Gunn rat; Cochlear nerve histology (EL Barbary, A. (54) 75)

Auditory nerve fiber; Frequency threshold tuning; Two-tone rate suppression; Cochlear nonlinearities; Gunn rat (EL Barbary, A. (54) 91)

Immunocytochemistry
Nucleus magnocellularis; Nucleus laminaris; Superior olive; Receptor autoradiography (Code, R.A. (54) 281)

Impulse noise
Stereocilia; Threshold shift; Tectorial membrane (Gao, W.-y. (54) 296)

Inner ear
Interdental cells; Tectorial membrane; Endolymph; Pilocarpine; Secretion (Prieto, J.J. (54) 59)

Interdental cells
Inner ear; Tectorial membrane; Endolymph; Pilocarpine; Secretion (Prieto, J.J. (54) 59)

Interferometer
Manubrium; Vibration mode; Rotation axis (Decraemer, W.F. (54) 305)

Ionic activity
Endolymphatic sac; DC potential; Longitudinal flow (Ikeda, K. (54) 118)

Isolated cells
Vestibular; Type I hair cell; Anaesthetics; Barbiturate; Ketamine (Scarfone, E. (54) 247)

Ketamine
Auditory brainstem response; Auditory evoked potential; Low-frequency potential; Slow-wave; Anesthesia; Gerbil (Smith, D.I. (54) 1)

Vestibular; Type I hair cell; Anaesthetics; Barbiturate; Isolated cells (Scarfone, E. (54) 247)

Link
Chick; Papilla; Hair cell; Stereocilia; Tip link; Development (Pickles, J.O. (54) 153)

Longitudinal flow
Endolymphatic sac; Ionic activity; DC potential (Ikeda, K. (54) 118)

Low-frequency potential
Auditory brainstem response; Auditory evoked potential; Slow-wave; Anesthesia; Ketamine; Gerbil (Smith, D.I. (54) 1)

Manubrium
Vibration mode; Rotation axis; Interferometer (Decraemer, W.F. (54) 305)

Masking
Critical bandwidth; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 164)

Critical bandwidth; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 209)

Melanin
Cochlea; Stria vascularis; Strain difference; Guinea pig (Hoefding, V. (54) 39)

Model
Cochlear vibration; Outer hair cell; Feedback (Geisler, C.D. (54) 105)

Mongolian gerbil
Cochlea; Aging; Hair cell; Compound action potential; Presbycusis; Hearing loss (Tarnowski, B.I. (54) 123)

Monkey
ABRs; Cochlear nuclei; Conductive loss; Development; EAM atresias (Doyle, W.J. (54) 145)

Neomycin
Spiral ganglion; Electrical stimulation; Histopathology; Cochlear implant; Auditory system development; Ototoxicity (Leake, P.A. (54) 251)

Neonatal deafness
Chronic electrical stimulation; Cats; Cochlear nucleus; Auditory deprivation (Hultcrantz, M. (54) 272)

Neurotransmitter
Amino acid; Uptake; Hair cell (Bobbin, R.P. (54) 135)

Nonlinearity
Critical bandwidth; Masking; Consonance; Cochlear coordinates; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 164)

Critical bandwidth; Masking; Consonance; Cochlear coordinates; Combination tones; Gain control; Dominance; Suppression (Greenwood, D.D. (54) 209)

Normative study
Brainstem auditory evoked responses; Development; Auditory; Brainstem; Children (Jiang, Z.D. (54) 67)

Nucleus laminaris
Nucleus magnocellularis; Superior olive; Immunocytochemistry; Receptor autoradiography (Code, R.A. (54) 281)

Nucleus magnocellularis
Nucleus laminaris; Superior olive; Immunocytochemistry; Receptor autoradiography (Code, R.A. (54) 281)

Ototoxicity
Spiral ganglion; Electrical stimulation; Histopathology; Cochlear implant; Auditory system development; Neomycin (Leake, P.A. (54) 251)

Outer hair cell
Cochlear vibration; Feedback; Model (Geisler, C.D. (54) 105)

Outer hair cells
Efferents; Acoustic trauma; Protection; Susceptibility (Patuzzi, R.B. (54) 45)

Papilla
Chick; Hair cell; Stereocilia; Link; Tip link; Development (Pickles, J.O. (54) 153)

Pilocarpine
Inner ear; Interdental cells; Tectorial membrane; Endolymph; Secretion (Prieto, J.J. (54) 59)

Presbycusis
Cochlea; Aging; Hair cell; Compound action potential; Hearing loss; Mongolian gerbil (Tarnowski, B.I. (54) 123)

Protection
Efferents; Acoustic trauma; Outer hair cells; Susceptibility (Patuzzi, R.B. (54) 45)

Receptor autoradiography
Nucleus magnocellularis; Nucleus laminaris; Superior olive; Immunocytochemistry (Code, R.A. (54) 281)

Rotation axis
Manubrium; Vibration mode; Interferometer (Decraemer, W.F. (54) 305)

Salicylate
Aspirin; Hearing loss, chemical-induced; Chinchilla; Hearing loss, noise-induced; Threshold shift (Bancroft, B.R. (54) 20)

Secretion
Inner ear; Interdental cells; Tectorial membrane; Endolymph; Pilocarpine (Prieto, J.J. (54) 59)

Slow-wave
Auditory brainstem response; Auditory evoked potential; Low-frequency potential; Anesthesia; Ketamine; Gerbil (Smith, D.I. (54) 1)

Spiral ganglion
Electrical stimulation; Histopathology; Cochlear implant; Auditory system development; Neomycin; Ototoxicity (Leake, P.A. (54) 251)

Spontaneous discharge activity
Hyperbilirubinemia; Auditory nerve fiber; Gunn rat; Cochlear nerve histology (EL Barbary, A. (54) 75)

Stereocilia
Chick; Papilla; Hair cell; Link; Tip link; Development (Pickles, J.O. (54) 153)

Impulse noise; Threshold shift; Tectorial membrane (Gao, W.-y. (54) 296)

Strain difference
Cochlea; Stria vascularis; Melanin; Guinea pig (Hoeffding, V. (54) 39)

Stria vascularis
Cochlea; Melanin; Strain difference; Guinea pig (Hoeffding, V. (54) 39)

Superior olive
Nucleus magnocellularis; Nucleus laminaris; Immunocytochemistry; Receptor autoradiography (Code, R.A. (54) 281)

Suppression
Critical bandwidth; Masking; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Dominance (Greenwood, D.D. (54) 164)

Critical bandwidth; Masking; Consonance; Cochlear coordinates; Nonlinearity; Combination tones; Gain control; Dominance (Greenwood, D.D. (54) 209)

Susceptibility
Efferents; Acoustic trauma; Protection; Outer hair cells (Patuzzi, R.B. (54) 45)

Tectorial membrane
Inner ear; Interdental cells; Endolymph; Pilocarpine; Secretion (Prieto, J.J. (54) 59)

Impulse noise; Stereocilia; Threshold shift (Gao, W.-y. (54) 296)

Threshold shift
Aspirin; Hearing loss, chemical-induced; Chinchilla; Hearing loss, noise-induced; Salicylate (Bancroft, B.R. (54) 20)

Impulse noise; Stereocilia; Tectorial membrane (Gao, W.-y. (54) 296)

Tip link
Chick; Papilla; Hair cell; Stereocilia; Link; Development (Pickles, J.O. (54) 153)

Two-tone rate suppression
Hyperbilirubinemia; Auditory nerve fiber; Frequency threshold tuning; Cochlear nonlinearities; Gunn rat (EL Barbary, A. (54) 91)

Type I hair cell
Vestibular; Anaesthetics; Barbiturate; Ketamine; Isolated cells (Scarfone, E. (54) 247)

Uptake
Amino acid; Neurotransmitter; Hair cell (Bobbin, R.P. (54) 135)

Vestibular
Type I hair cell; Anaesthetics; Barbiturate; Ketamine; Isolated cells (Scarfone, E. (54) 247)

Vibration mode
Manubrium; Rotation axis; Interferometer (Decraemer, W.F. (54) 305)
